

THE JUNK BOX

XX

Volume III, Issue No. 4

October 15, 1968

The Official Publication of the MICHIGAN TOKEN & MEDAL SOCIETY

XX

ELECTION OF OFFICERS - 1969

Included with this issue is a ballot listing the Mich-TAMS members who accepted nomination for the various offices during 1969. All of the candidates are active token and medal collectors. Many have been active in exhibiting their collections at the shows and conventions throughout the country. Many are well known through their research efforts, and all have been most helpful to the Michigan Token & Medal Society during the past three years. Several have contributed their literary talents to "The Junk Box", and all are considered to be well qualified. We sincerely thank these nominees for volunteering their services to the Mich-TAMS for the coming year.

We hope that you will exercise your voting privilege. After marking your ballot, indicating your choice for the officers, kindly place it in the self-addressed envelope provided marked "Official Ballot", seal it and mail to us at your earliest convenience. Do not include other material in the sealed "Ballot" envelope, as these will not be opened until our convention in November. At the November 30th meeting the ballots will be opened by an election committee, counted, and the results announced.

In last year's election, 47.3% of our members returned their ballots. We hope this year will show an even larger percentage of ballots returned.

Other nominations were received, but for various reasons the nominees found it necessary to decline. These nominees included John W. Canfield and Ray Bouchard (President), Norman Sherman and Roswell Burrows (Vice President), and Norma Killinger (Secretary-Treasurer).

DUES RENEWALS - 1969

Membership dues are due and payable as of January 1, 1969. A "Dues Notice" and a self-addressed envelope are included with this issue for your convenience in remitting.

It is costly for our group to send out second reminders, and therefore, we are not planning to send second notices. If you wish to retain your membership in the Mich-TAMS (and we sincerely hope you do), and insure your receiving all of the 1969 issues of "The Junk Box", we urge you to send in your renewals in the amount of \$1.00 now, so that this does not get overlooked. The 1969 membership cards will be mailed with the January issue.

There will be no increase in dues for the coming year, but due to the rising costs of printing supplies, envelopes and postage, it may become necessary to have an increase for the 1970 year. There is a poll question on this year's dues notice to determine whether the membership would be in favor of, or opposed to this increase. We would appreciate your opinion on this issue.

NOVEMBER BUSINESS MEETING

The semi-annual business meeting has been scheduled for Saturday, November 30th, beginning at 1:00 P.M. This will be held in conjunction with the MSNS Fall convention (Nov. 29-30, Dec. 1) at the Howard Johnson Motor Inn (Third Ave. & Grand Blvd.) Detroit, Mich.

There will be a business meeting at which opportunity will be given for any of our members to make suggestions for future projects our group may wish to undertake, ideas for the improvement of Mich-TAMS, conclusion of the Mail Bid auction of donated material (listed elsewhere in this issue), as well as

Oct. '68, Pg. #2

the announcement regarding the elected 1969 officers.

There will be an educational program presented pertaining to tokens and medals. We sincerely hope that many of our members will make plans to be in attendance, and participate in this meeting.

PROGRESS REPORT - 1968

The 1968 Officers feel that the Mich-TAMS has made progress during the past year. Our total membership for 1968 amounted to 275, representing an increase of 47 over the 1967 membership total of 228.

The Mich-TAMS treasury has managed to stay in the black for the year, but in order to do this, "cut pages" in the bulletin had to be omitted and the size of the issues had to be curbed. A full '68 Treasury Report will be part of the first issue for 1969.

The quarterly issues of "The Junk Box" were published and mailed out as planned. The Editor thanks all of the members who submitted material for publication, or helped in some other way on these issues.

INDEX OF ISSUES

It has been suggested that an Index be included as part of our bulletin.

Melvin Fuld has volunteered to index the first three volumes (12 issues), and this will be included as part of our January-1969 issue. Beginning with the January issue, we plan to index the single issues as they are released.

MICH-TAMS EXHIBIT WINNERS

Congratulations are in order for our members who have been awarded honors for exhibits placed in competition, or who have achieved recognition in other ways.

At the MSNS Traverse City convention held during July, Bob Bemis-- Mich-TAMS member from Winchester, Indiana, placed 2nd in the Token & Medal category with a five case display of Wooden Money, Gambling Tokens, Presidential Coins and Canadian.

Bob also placed 3rd in the U.S. Coins classification.

The wife of one of our members, Mrs. John Northcott, placed 1st in the Token & Medal category. She had a three case display of Papal Medals.

At the ANA's 1968 San Diego convention, Arlie Slabaugh placed 1st in the U.S. Obsolete Paper Money class. Alice Moon took a 2nd in the Candian Coins and Currency classification.

Congratulations to all, as well as to those who have taken honors at other shows during the last few months.

Another of our members--Junior member Randy Streeter (Bay City, Mich.) received an Outstanding Youth Numismatist Award for his efforts in writing an essay for the 1968 Youth Literary Award competition. Randy placed 2nd in this, and is certainly deserving of our congratulations for this accomplishment.

The deadline for all copy--ads, articles, comments, etc. for the January-1969 issue has been set as of December 15th. Please send in copy as early as possible.
Mailing Date--approx. Jan. 15th.

VIETNAM SLUGS
By - S/Sgt. Ray Bows, MTMS #328

Oct. '68
Pg. #3

As in all areas using Military Payment Certificates, Vietnam must use "Slugs" for vending machines, as well as for the "one armed bandits" and the juke boxes. Due to the fact that these slugs are not centrally controlled, hundreds of varieties exist.

Some are very simple with nothing more than a few letters which would be meaningless to most individuals outside the units where these tokens are used. (VTMA, WETSU, SEMO, HACOM, SITC, to mention a few.)

While some of the pieces illustrate unit crests and insignias including Engr. Corps., Military Police, Signal Corps., Military Advisory Group-Vietnam, and U.S. Army-Vietnam, other slugs depict humor typical of the G.I. in Vietnam. One such contains the name, "Charlies Playboy Club". (Charlie meaning the V.C. "attacks the place so much, he thinks it belongs to him.") Another is from "Beetle Nut Lounge". (The beetle nut is a kind of red chewing gum, used by the elderly population of the country.) There is one from "Flintstone Park NCO Club" and another from "Heaven In Hell Club".

Strangely enough, many of the tokens in this series are already obsolete. The 39th Signal Bn. left behind three different varieties when it was replaced by the 69th Signal at Camp Galore.

The CoCo Club-Saigon (Officers and Embassy Personnel) obtained new tokens after the name was changed to the International House.

Strangest of all, the 79th Ordinance Bn., Rice Mill, issued tokens a couple of years ago at its club. Today there is no sign of the club, nor does anyone stationed at the 79th which is still at Rice Mill, know that there even was a club there! The only bit of evidence remaining is an occasional slug turning up in the slot machine of some other club.

These tokens are ignored by almost all who come in contact with them, but someday they may be the only remembrance of units and installations that were there, as the men and their organizations rotate to and from Vietnam.

ANSWER TO ORGANIZATIONAL PUZZLER

In the July, 1968 issue (page 14) a puzzle was submitted to the membership. Two correct answers were received for this. One was sent in by Don McKelvey (Port Huron, Mich.), and the other from William C. Marquand (Muskegon Hgts., Mich.). Oddly enough, and proof that there was no collaberation involved, the two answers submitted were not the same, nor were they the same as the three solutions that were in mind at the time it was published. The puzzle solutions are as follows:

	A V A	6 7 6	6 7 6	8 3 8	474	838
+	T A M S	8 6 2 0	8 6 2 5	0 8 6 7	8423	7864
	<u>I O W M C</u>	<u>1 9 3 2 4</u>	<u>1 9 3 2 4</u>	<u>5 9 1 6 2</u>	<u>19526</u>	<u>59162</u>
	M T A M S	2 8 6 2 0	2 8 6 2 5	6 0 8 6 7	28423	67864

HERBERT E. (BERT) HOTCHKISS - 1899-1968

With deep regret, we inform you of the death of one of our members, Mr. Bert Hotchkiss of Pontiac, Michigan. Bert died on July 19, 1968. He was a familiar figure at all of the Michigan numismatic functions, and he will be sincerely missed by all at our future meetings and gatherings. We extend the sympathies of the entire membership to his family.

POPULAR WORLD'S FAIR CATALOGUE
STILL AVAILABLE FROM ANA LIBRARY

Many Americans toured the spectacular pavilions of Expo '67 last year in Montreal, and this summer the HemisFair '68 is attracting visitors from all parts of the country to the first world's fair in the southern portion of the United States.

Although a number of unique medals have been struck commemorating these two events, our modern generation cannot begin to compare these issues with the countless number struck a generation ago for the New York World's Fair.

An excellent example of 300 such issues commemorating the famous New York fair may be seen and studied in an excellent reprint offered by the ANA, New York World's Fair Medals, 1939-1940, by Ernest Weidhaas.

Reprinted from The Numismatist, the official publication of the ANA, this copyrighted numismatic record is bound to bring back many lingering memories to persons who enjoyed the peaceful atmosphere of the New York fair during the early part of one of the worst catastrophes which ever afflicted civilization--World War II. Modern generation collectors will enjoy delving into the past through sharp illustrations, all actual sizes of the specimens.

The listing is roughly divided into four separate categories: Section 1, Medals; Section 2, Pseudo-medals (lucky pennies, enclosed cents, elongated cents, advertising tokens and exhibitors' give-aways); Section 3, Badges and special day buttons, and Section 4, Miscellaneous, pins, charms and semi-jewelry.

The author points out that almost every one of the 300 items listed, with the exception of a few presentation and award medals issued by semi-official and private groups, could have been obtained by a visitor at the fair, either as gifts from the various exhibitors or by purchase at nominal cost.

Theoretically it should be possible to form a complete collection with ease. He adds, however, that a number of the most insignificant pieces will be so difficult to obtain that acquiring them is a formidable challenge to the most ardent collector.

This classic reprint may be ordered for \$2.00 postpaid from the Library of the American Numismatic Association, P.O. Box 2366, Colorado Springs, Colorado 80901.
(7/15/68)

& DON'T FORGET YOUR OWN 1969 RENEWALS - !

OF OWOSSO, MICHIGAN

By - F. D. (Pete) Hartley, MTMS #18

In August of 1966 the men of Owosso, Michigan lost their downtown sanctuary. Gray's Stag Bar & Cigar Store was sold to a bookstore proprietor by the name of William Ross. This ended an era for Owosso's only male sanctuary. The "stag" tradition made the bar unique in the Owosso area.

The building located on the corner of Exchange and Washington Streets, dates back about a hundred years. It was a Post Office in the 1880's, and later was used as a grocery store and restaurant. The upper two stories once served as a cigar factory.

About forty years ago, Gray's was a favorite hangout for the late James Oliver Curwood (Owosso's famous author), as well as for several other prominent Owosso men.

The following is a tentative listing of tokens issued from Gray's:

1. Grays / Cigar / Store / Owosso
Good For / 1¢ / In Trade (W.M., 18mm.)
2. Grays / Cigar / Store / Owosso, Mich.
Good For / 5¢ / In Trade (Alum., 22mm.)
3. Grays / Cigar / Store / Owosso, Mich.
Good For / 10¢ / In Trade (Alum., 25mm.)
4. Grays / Cigar / Store / Owosso, Mich.
Good For / 10¢ / In Trade (Alum., 24mm.)
5. Gray's / Cigar / Store / Owosso, Mich.
Good For / 10¢ / In Trade (W.M., Octagon, 24mm.)
6. Grays / Cigar / Store / Owosso, Mich.
Good For / 10¢ / In Trade (W.M., 23mm.)
7. Grays / Cigar / Store / Owosso, Mich.
Good For / 25¢ / In Trade (Alum., Octagon, 28mm.)
8. Grey's / Cigar / Store / Owosso / Mich.
Good For / 10¢ / In Trade (Black Plastic, 23mm.)
9. Grays / Cigar / Store / Owosso
Good For / 10¢ / In Merchandise (W.M., Octagon, 24mm.)
10. Grays Cigar Store / Owosso / Mich.
Good For / 5¢ / In Merchandise (Brass, Octagon, 22mm.)
11. Gray's Cigar Store / Owosso, Mich.
Good For / 10¢ / In Trade (Alum., 25mm., Cut Out 10)
12. Grays Cigar Store / Owosso, Mich.
Good For / 25¢ / In Trade (Alum., 24mm., Cut Out 25)
13. Grays Cigar Store / Owosso / Michigan
Good For / 5¢ / In Trade (Alum., 22mm.)
14. Grays / Cigar / Store / Owosso, Mich.
Good For / 10¢ / In Trade (Alum., 28mm., Hex.)
15. Gray's/Cigar / Store / Owosso, Mich.
Good For / 10¢ / In Trade (Brass, 23mm.)

16. Grays / Cigar / Store / Owosso, Mich.
Good For / 10¢ / In Merchandise (Alum., 24mm.)
17. Brown & Gray / Cigar / Store / Owosso, Mich.
Good For / \$1.00 / In Trade (Alum., 25mm.)

PHILIPS PACKING COMPANY

By - Chris Jensen, MTMS #206

Philips Packing Company of Cambridge, Maryland (main plant), had about ten plants scattered throughout Maryland and parts of Delaware. They also owned many smaller companies that operated under different names. Philips was the largest packer of food goods on the East coast at one time. After awhile the names of Philips and Cambridge became synonymous. In all they did a yearly business of a few million dollars.

Several years ago, the Philips Packing Company sold out to Coastal Foods Corporation, and the business is now operated by them. The only remembrance of the Philips Company today, is the tokens they issued.

Through a very fortunate purchase, I bought out the entire hoard of the company's tokens, and I am offering them to interested collectors who want specimens for their collection. I am offering these for sale or trade. A six piece set of the Philips tokens (4 aluminum and 2 brass, Very Scarce) in values from 3¢ to \$1.00, is available for \$1.00 per set. The tokens are in especially nice condition, and the lettering and other details are distinct and clear. If preferred, I will trade for any six piece Merchant Trade Token set of yours, or any ten Merchant Trade Tokens. The Philips tokens have the full name, plus City and State on them, so therefore, your tokens must have the same. Multiple trades will be welcomed. Send to: C.E. Jensen, 6 Grandview Ave., Mt. Vernon, N.Y. 10553.

THE MUSSEY TOKEN

By - Roswell Burrows, MTMS #11

A word of explanation is in order with regard to the town of Mussey and its one Civil War Store Card, that of E. C. Morse. This town was originally assigned to Ohio by Hetrich and Gutttag, and the token was listed in the Fuld catalog as Ohio 595A.

The uncertainty of some of the H-G attributions has led to further research on the part of a few collectors, in this instance Robert R. Hailey. To those who may not be acquainted with Bob Hailey, he is one of the leading lights in TAMS, a dedicated and knowledgeable collector, and a fine gentleman.

Bob, working on a lead from the New York Public Library, enlisted the help of the St. Clair County Library in Port Huron, Michigan, who in turn referred the inquiry to its branch library in Capac, Mussey Township. From a 1912 copy of the Capac Journal, it was learned that a Mr. E. Cory Morse had operated a general store one and one-quarter miles North of Capac from 1863 to 1865. The article in the paper was prompted by a local farmer who had found one of the tokens in his field.

The evidence seems conclusive, and we owe a debt of gratitude to Bob, and those like him, who share their research and knowledge with us all.

"BAR TICKETS"

By - Melvin Fuld, MTMS #141

While checking thru the Catalogue of J.N.T. Levis's collection of coins and tokens entitled, "The Money of the Merchants" (cataloged by W. Elliot Woodward, and auctioned by Messrs. Bangs & Co., N.Y. City, on May 26-29, 1884--page 92) Bar Tickets are listed.

There are only eleven pieces listed, and are as follows:

#1975	Bowers L. A.	10 Cents.	Emmett House; brass, fine	Sold for 5¢
#1976	Burke & Preil,	1 drink,	Octagon, brass, fine	5¢
#1977	Congress Hall,	5 Cents at bar,	brass, fine	6¢
#1978	Chapman, N.L.,	Muncie, Ind.	5 Cents	6¢
#1979	J.C.G., Kirby	House.	5 Cents, brass, fine	6¢
#1980	Gercken, J.	5 Cents,	brass, fine	4¢
#1981	Lorebach, H.,	Waverly, O.	5 cents, brass, fine	4¢
#1982	Liebertz, P.	Good 5¢ drink,	113 Bowery, brass, fine, rare	4¢
#1983	Langrehr, D.,	Waverly, O.	5 cents; rev.-heart, brass, fine	4¢
#1984	F.M., "Good for 5",	brass, fine		4¢
#1985	Rademaker, J.T.,	Peru, Ind.	5 cents, brass, fine	4¢

One will notice that only three have the city and states; the balance are Maverick. This sale was catalogued by Woodward by States and Cities, yet he placed the three in this category. One piece had "1 drink", one "5 cents at bar", and one "Good 5¢ drink". The other eight have no mention of anything resembling bar or drink.

For years catalogues made no mention of a separate section for "Bar Tickets" or the like. One heard very little about "Saloon" tokens. About a year ago, a western collector asked about "Saloon" tokens with city and state. These are unusual. Since then we have noticed several collectors asking for only "Saloon" tokens containing the name Saloon, and the City and State on them. Frankly, mavericks with the word "Saloon" seem to be more scarce than those with the City and State. All are scarce. It is strange that there are only a handful of "Saloon" specialized collectors.

When Lyman H. Low catalogued the Benjamin Betts collection (Jan. 11-12, 1898 sale), he did not separate the tokens by categories. He listed by states, cities and towns.

The Henry B. H. Beaufoy collection was catalogued by J. H. Bume. This listing was given to the members of the corporation of the City of London in 1853. He lists London Traders, Taverns, and Coffee-House tokens current in the 17th Century. Some of these tokens are real works of art. This was the day of the coaches, and the taverns were strategically located to correspond with their routes. The description of these tokens makes most interesting reading. These were the days of taverns and coffee-houses, but no mention was made of "pubs".

One of the most interesting collections to the writer is the "Montague Guest Collection of Badges, Tokens and Passes" located in the British Museum. There are 168 tokens of inns, taverns, coffee-houses listed. Most of the pieces are taverns and ins, with two being called "saloons". Other interesting names are, "Temple Luncheon Bar", "Travellers' Rest" and "Dinner Ticket". One thing is certain--all of the pieces mentioned are very old.

The writer has always been interested in listing different types of tokens issued, and as a result has always been fascinated by the various kinds of business listed in early and modern "Directories of Business".

The real neglected series are types of businesses connected with drinking not previously mentioned. We index these as follows: Tokens that mention Bar, Beer Garden, Beer Parlor, Cafe, Cocktail Lounge, Inn, Lounge, Men's Bar, Pub, Tap Room and Tavern.

[illegible]

WHY NOT TOKENS - ??

By - Chris Jensen, MTMS #206

A short fling in this area of collecting is almost certain to result in the individual becoming hooked, as the multiplicity of tokens and other items which may be encountered in the field make it one of endless fascination. Theme collection may be developed along innumerable lines, and carried out at a relatively low cost. An exploratory probing of the various basic token avenues - such as collecting by era of subject, metallic content, or denomination, can be accomplished rather easily. Remembering to buy the book first, the collector can survey the token field for a period stretching back more than two centuries with a handfull of books costing considerably less than today's average daily wage.

While most token material is inexpensive, the collector will soon find that the more choice or desirable pieces command substantial premiums, though they are manyfold cheaper when compared to U.S. coins. He will note with interest that many of the older pieces are generally rarer, and although they have a greater story to tell, they are priced much lower than the more modern issues.

However, regardless of the era the collector chooses to explore, the modern or the obsolete, he will find they both hold their own special fascination. The obsolete tokens are already a part of history, while the modern issues are a living witness to history in the making.
